

Download and install drivers for GeoFlex

1. Click the following link to download your drivers: <https://s3.eu-west-2.amazonaws.com/geocomputers/Drivers/Geoflex/Geoflex.exe>
2. Open the downloaded file to run the program. This will extract the drivers to the `c:\drivers\` directory. Wait for the installer to complete.

3. Press **Windows Key + R** to open the run dialog. Type `c:\drivers\install.cmd` and press OK.

4. When asked if you want to allow PowerShell to make changes to your device select **Yes**. This will allow the installation of your drivers.

5. Once the script completes **Reboot** your computer.
